

## **Good news for anyone considering a career in accounting.**

Natasha Bevan, Principal Consultant with Careers Register notes that "over the last six months there has been a significant increase in vacancies for accountants on a contract and temporary basis. The demand for talent is primarily in shared services centres, multinationals, SMEs and financial services. CPL are noticing a larger number of roles for accountants with a background in finance management, general ledger, statutory accounting or reporting and financial analysis.

The market is very buoyant and there are plenty of exciting opportunities on offer. Companies now have to move fast and promote themselves as an employer of choice in order to attract the best talent".
