

# FINANCIAL ACCOUNTING

## FORMATION 2 EXAMINATION - AUGUST 2018

### NOTES:

You are required to answer Question 1. You are also required to answer any **three** out of Questions 2 to 5. Should you provide answers to all of Questions 2 to 5, you must draw a clearly distinguishable line through the answer not to be marked. Otherwise, only the first three answers to hand for Questions 2 to 5 will be marked.

**Note: Students have optional use of the Extended Trial Balance, which if used, must be included in the answer booklet.**

**Provided are pro-forma:**

**Statements of Profit or Loss and Other Comprehensive Income By Expense, Statements of Profit or Loss and Other Comprehensive Income By Function, and Statements of Financial Position.**

### TIME ALLOWED:

3.5 hours, plus 10 minutes to read the paper.

### INSTRUCTIONS:

During the reading time you may write notes on the examination paper but you may not commence writing in your answer book.

Marks for each question are shown. The pass mark required is 50% in total over the whole paper.

**Start your answer to each question on a new page.**

You are reminded to pay particular attention to your communication skills and care must be taken regarding the format and literacy of your solutions. The marking system will take into account the content of your answers and the extent to which answers are supported with relevant legislation, case law or examples where appropriate.

List on the cover of each answer booklet, in the space provided, the number of each question attempted.

# FINANCIAL ACCOUNTING

FORMATION 2 EXAMINATION - AUGUST 2018

Time allowed: 3.5 hours plus 10 minutes to read the paper.

Answer Question 1 and **three** of the remaining four questions.

**Note: Students have optional use of the Extended Trial Balance, which if used, must be included in the answer booklet.**

**1.**

- (a) Identify and explain the advantages and limitations of ratio analysis for the purposes of assessing financial performance.

(10 Marks)

- (b) You are the newly appointed financial accountant to Delloyd Limited, a manufacturing company. You have extracted the following trial balance below, as at 31 December 2017:

|   | Debit<br>€       | Credit<br>€      |
|---|------------------|------------------|
| Accumulated Depreciation - Buildings at 31.12.16      |                  | 275,220          |
| Accumulated Depreciation - Motor Vehicles at 31.12.16 |                  | 51,600           |
| Administrative Expenses                               | 293,766          |                  |
| Allowance for Bad and Doubtful Debts                  |                  | 11,160           |
| Bank  | 312,870          |                  |
| Buildings   | 974,400          |                  |
| Current Tax Payable                                   |                  | 30,000           |
| Distribution Costs                                    | 274,692          |                  |
| Income Tax  | 28,000           |                  |
| Inventory at 31.12.16                                 | 141,480          |                  |
| Investment Income                                     |                  | 6,250            |
| Investments - 5%                                      | 250,000          |                  |
| Long Term Loan  |                  | 210,000          |
| Motor Vehicles  | 144,000          |                  |
| Purchases   | 875,300          |                  |
| Retained Earnings at 31.12.16                         |                  | 1,236,763        |
| Revenue   |                  | 1,480,200        |
| Share Capital - 120,000 at €0.50 each                 |                  | 60,000           |
| Trade Payables  |                  | 188,715          |
| Trade Receivables                                     | 255,400          |                  |
|   | <u>3,549,908</u> | <u>3,549,908</u> |

**The following information, based on your investigations, has also come to light:**

- (i) Delloyd Limited's inventory was counted on 31 December 2017 and amounted to €286,400 at cost. On that date one of the counting team forgot to count one bay of a warehouse. This bay was counted on 2 January 2018 and the inventory counted was valued at €12,600 on that date. However, inventory was sold from that bay on 1 January 2018 at a selling price of €1,600. Delloyd Limited makes a 20% margin on its sales.
- (ii) Investment income has only been received for the first six months of 2017.
- (iii) A credit sale of €4,800 was debited to bank and credited to trade payables by mistake.
- (iv) Delloyd Limited recovered a bad debt of €3,100 in December 2017. This amount was lodged to its bank account but has not been recorded in its financial statements. It has also decided to change the rate for the allowance of bad and doubtful debts to 4%.

- (v) Delloyd Limited made a tax payment on 23 December 2017 of €46,000.
- (vi) Delloyd Limited purchased goods on credit from a UK supplier for £12,000 on 1 November 2017 but incorrectly recorded this as €12,000 in its accounts on that date. On 10 December 2017, Delloyd Limited paid £8,000 to the UK supplier but again entered the amount incorrectly in its accounts as a payment of €8,000. The balance owing was unpaid at year-end. The exchange rates were as follows:

|          |            |
|----------|------------|
| 01.11.17 | €1 = £0.75 |
| 10.12.17 | €1 = £0.80 |
| 31.12.17 | €1 = £0.90 |

- (vii) Delloyd Limited purchased and paid for a building amounting to €200,000 on 1 July 2017.
- (viii) Delloyd Limited sold a motor vehicle on 1 September 2017 for €6,000 and lodged the money to the bank. It purchased this motor vehicle on 1 April 2013 for €25,000.
- (ix) Depreciation is to be charged as follows:

|                |                           |
|----------------|---------------------------|
| Buildings      | 2% Straight Line on Cost  |
| Motor Vehicles | 15% Straight Line on Cost |

No depreciation is charged in the year of sale and a full year's depreciation is charged in the year of purchase. Revaluation losses are split evenly between Administrative Expenses and Distribution Costs.

On 31 December 2017, the buildings were revalued by a professional valuer at €850,000.

- (x) All of the relevant expenses in the trial balance are to be split evenly between Administrative Expenses and Distribution Costs.

#### **REQUIREMENT:**

Prepare, in a form suitable for publication, based on IFRS, a Statement of Profit or Loss and Other Comprehensive Income and Statement of Financial Position for Delloyd Limited for the financial year-ending 31 December 2017.

*Note: All workings should be shown.*

(30 Marks)

**[Total: 40 Marks]**

**2.** The financial controller of Ocalliam Limited has asked you prepare some information in relation to its trade receivables and trade payables. The company has provided the following information:

(i) The opening balance on its trade receivables and trade payable ledger were as follows:

|                    |                |         |
|--------------------|----------------|---------|
| Trade Receivables: | Debit Balance  | €56,247 |
| Trade Payables:    | Credit Balance | €68,164 |

(ii) The following were the transactions that occurred for the year-ended 31 December 2017 in relation to its trade receivables and trade payables:

|  | €       |
|--|---------|
| Credit sales   | 345,812 |
| Cash sales   | 10,845  |
| Credit purchases   | 220,541 |
| Credit sales returns   | 6,475   |
| Credit purchases returns   | 20,169  |
| Trade payable accounts settled by contra accounts with trade receivables | 15,467  |
| Discount allowed   | 14,852  |
| Discount received  | 23,253  |
| Amounts paid by cheque to trade payables                                 | 194,652 |
| Amounts received by cheque from trade receivables                        | 362,145 |
| Cheques received from trade payables                                     | 1,571   |
| Cheques paid to trade receivables  | 1,854   |

**REQUIREMENT:**

(a) For the year ended 31 December 2017, prepare both a Trade Receivable Control Account and a Trade Payable Control Account.

(8 Marks)

(b) Prepare journal entries for note (ii) above for the year-ended 31 December 2017 on the basis that none of the transactions in note (ii) have as yet been accounted for in the records of Ocalliam Limited.

(12 Marks)

**[Total: 20 Marks]**

- 3.** The financial controller of Femphr Ltd. has asked you, a trainee accountant, to research the implications for the company arising from the implementation of the new international financial reporting standard on Revenue i.e. IFRS 15 - *Revenue from contracts with customers*.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This core principle is delivered in a five-step model framework.

**REQUIREMENT:**

Prepare a report for the financial controller in which you:

- (a) (i) Identify and briefly explain each of the five steps for revenue recognition. (5 Marks)
- (ii) Explain what is meant by the term 'performance obligations' in a contract? (2 Marks)
- (iii) Advise how a good or service can be defined as 'distinct'. (2 Marks)
- (b) Femphr Ltd. enters a contract with a customer to supply a licence for a standard software product. The company will also install the software, provide updates to the software and technical support for a number of years. Femphr Ltd. sells the licence and technical support separately, the software will continue to operate without the software updates and the installation of the software will be sub-contracted to a number of approved installers throughout the country.

**REQUIREMENT:**

In light of your answer to part (a) above, identify the good/services which are distinct in the above contract.

(4 Marks)

- (c) Femphr Ltd. entered into a contract with a customer to sell its product for €200 per unit for the 2017 calendar year. If the customer was to purchase more than 1,200 units in the year, the price would decrease to €150 per unit. Femphr Ltd. did not believe at the date of the contract being initiated that the customer would purchase more than 1,200 units from it due to previous trading patterns with this customer. However, on 1 October 2017, Femphr Ltd. formed the view that the customer would meet or exceed the 1,200 units threshold based on its sales of 1,100 units by that date. The customer had purchased 500 units on that date and informed management of Femphr Ltd. that it would be placing a further order of 200 units on 1 December 2017. This customer had purchased 600 units by 30 June 2017.

**REQUIREMENT:**

Using journal entries, show how Femphr Ltd. accounts for its revenue to the customer in the period from 1 January 2017 to 30 June 2017 and in the period from 1 July 2017 to 31 December 2017.

(7 Marks)

**[Total: 20 Marks]**

4. The trial balance for Mr. Thomas Dornan, a butcher in Cork, for the year ended 31 December 2017 does not balance. Mr. Dornan had identified the following issues and has approached you for help and guidance in rectifying them. The issues are:

1. Home insurance of €1,000 was paid and included in the business insurance expense.
2. Purchase returns of €600 have been posted to the revenue returns account.
3. A bad debt recovered of €840 was credited to the bad debt written off account by mistake.
4. Mr. Dornan introduced €2,000 of his own money into the business in December 2017. The journal entry included in his financial statements was as follows:

|        |         |        |        |
|--------|---------|--------|--------|
| Debit  | Bank    | €2,000 |        |
| Credit | Revenue |        | €2,000 |

5. The rate for amortisation of government grants incorrectly used was 20% instead of 10%. The government grant amount is €20,000 before amortisation commenced. The bookkeeper debited cost of sales and credited property, plant and equipment with the incorrect amount.
6. Deposit interest received and banked of €800 was included in finance costs.
7. Repairs and maintenance unpaid of €3,000 were capitalised to property, plant and equipment. The depreciation rate used for property, plant and equipment is 10% and a full year's depreciation occurs in the year of purchase.

Prior to the discovery of the above, Mr. Dornan's gross profit for the year was calculated at €65,600 and the net profit for the year at €26,400.

**REQUIREMENT:**

- (a) Prepare journal entries for Mr. Thomas Dornan to record and correct relevant transactions from the above information for the financial statements for the year-ending 31 December 2017.

(12 Marks)

- (b) Calculate the revised gross and revised net profit figures after adjusting for items 1 to 7, as appropriate.

**END OF PAPER**

## SUGGESTED SOLUTIONS

THE INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS IN IRELAND

# FINANCIAL ACCOUNTING

FORMATION 2 EXAMINATION - AUGUST 2018

### SOLUTION 1

- (a) Discuss the advantages and limitations of ratios (10 Marks)

Advantages of Ratios

(5 Marks)

#### Comparison

Financial ratios provide a standardised method with which to compare companies and industries. Ratios can put all companies on a relatively equal playing field in the eyes of analysts; companies are judged on their performance rather than their size, sales volume or market share.

#### Industry Analysis

Ratios can reveal trends in particular industries, creating benchmarks against which the performance of all industry players can be measured thus providing valuable information to users, shareholders, trade payables, banks.

#### Stock Valuation

Ratios help investors and analysts to evaluate the strengths and weaknesses of individual companies or industries and allow them to highlight companies to invest in or to avoid investing in.

#### Planning and Performance

Ratios can provide guidance to entrepreneurs when creating business plans or preparing presentations for lenders and investors. Ratios can also serve as an impetus for strategic change within an organisation, providing management with relevant guidance and feedback as ratio valuations shift in response to organisational changes. Ratios help to ensure managers perform by revealing financial weaknesses and opportunities.

#### Simplicity

It highlights important information in simple formats. A user can judge a company by just looking at a small amount of numbers instead of reading the whole financial statements.

Limitations of Ratios

(5 Marks)

#### Financial Statements

Ratios are based off of financial statements, so if the financial statements are incorrect in any way it will affect the quality of the analysis

#### Historical Information

Ratios are based on historical findings and don't take into consideration current market conditions. Therefore, they may not be all that helpful for predicting the future

#### Quantitative Tool

Ratios are a quantitative tool, thus ignoring qualitative factors when completing the ratios. For example, a large current ratio might not equal a good liquidity position if current assets include large inventories of obsolete items

#### Ratios account for one variable

Ratios only account for 1 variable. Therefore, they cannot always show the correct picture since multiple variables need to be kept in mind when interpreting them

#### Seasonal factors affect financial data

Ratios can be biased for seasonal businesses. For example, a snow shovel company may maintain high inventory for the winter season, but will have significantly less for rest of the year

Re: IFRS 15 – Revenue from contracts with customers

Date: April 2018

- (a)  
(i) An entity recognises revenue in accordance with that core principle by applying the following five steps.

(5 Marks)

- (ii) A performance obligation is where there is a contract to transfer goods or services to a customer and the goods or services are distinct and can be accounted for separately.

(2 Marks)

- (iii) A good or service is distinct if;

- (a) The customer can benefit from the good or service on its own or together with other resources that are readily available to the customer; and
- (b) The entity's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract.

(2 Marks)

- (b) Given the above information, the customer can benefit from each of the goods or services either on their own or altogether. The promises to transfer goods or services are separately identifiable. Consequently there are a number of distinct good or services identified i.e. software licence, installation service, software updates and technical support.

(4 Marks)

- (c) **Period 01.01.17 – 30.06.17**

As Femphr Limited does not believe that the customer will hit the target, it should account for the sales using a sales price per unit of €200 i.e. sales of 600 units x €200 per unit = €120,000 as follows:

|     |                   |          |           |
|-----|-------------------|----------|-----------|
| Dr. | Trade Receivables | €120,000 |           |
| Cr. | Revenue           |          | €120,000. |

**Period 01.07.17 – 30.12.17**

On the basis that Femphr Limited believes that the customer will reach its target its accounts for its transactions with the customer as follows:

Order of 500 units x €150 = €75,000

|     |                   |         |          |
|-----|-------------------|---------|----------|
| Dr. | Trade Receivables | €75,000 |          |
| Cr. | Revenue           |         | €75,000. |

Order of 200 units x €150 = €30,000

|     |                   |         |          |
|-----|-------------------|---------|----------|
| Dr. | Trade Receivables | €30,000 |          |
| Cr. | Revenue           |         | €30,000. |

Recalculating the sales value of the original 600 units sold in the first six months at €150 per unit instead of €200 per unit i.e. €50 selling price per unit of a difference i.e. 600 units x €50 per unit difference = €12,000 as follows:

|     |                   |         |          |
|-----|-------------------|---------|----------|
| Dr. | Revenue           | €12,000 |          |
| Cr. | Trade Receivables |         | €12,000. |
