- **5.** Seamus is Irish resident and domiciled. He entered into the following transactions during 2015:
 - 1. In February 2015, Seamus disposed of a five hectare parcel of land to his brother for €140,000. The market value of the five hectares of land at the date of disposal was €190,000. The land disposed of was part of a larger lot of land purchased by Seamus in May 1996. The lot originally purchased comprised ten hectares of land and Seamus paid €210,000 for the land and €22,000 in stamp duty and legal fees.
 - In May 2005, Seamus carried out extensive drainage and flood defence work on the land at a cost of €45,000.
 - In 2009, Seamus sold five hectares of the land to a neighbour for €170,000. At that date the market value of the remaining five hectares of land was €150,000.
 - 2. In April 2015, Seamus gifted a separate site of a 0.5 hectares to his daughter, Anne. The market value of the 0.5 hectare site at the date of the gift was €38,000. The site had been purchased by Seamus in October 1995 for €19,000 including costs. The site was gifted to Anne so that she could build a home.
 - Anne currently lives at home with her parents (pending the construction of a house on the gifted land) and does not own any residential property.
 - 3. Seamus bought a greyhound dog in June 2009. He paid €5,000 for the dog. The dog has been very successful on the race track over the past year. He sold the dog in August 2015 for €55,000.
 - 4. In July 2015, Seamus gifted an antique ring, valued at €6,500, to his daughter, Sarah, on the occasion of her 21st birthday. The market value of the ring at 6 April 1974 was €2,000. Seamus had been left the ring in his mother's will when she died in August 1999. The market value of the ring at that date was €6,000.
 - 5. In September 2015, Seamus sold 200 shares in a UK quoted company for €2 per share. He bought 200 shares in 1972 for €3 each and the shares had a market value at 6 April 1974 of €4 each. Seamus lodged the sales proceeds into a UK bank account.

Seamus has development land capital losses brought forward from 2014 of €9,000.

REQUIREMENT:

(a) Compute the capital gains tax (CGT) payable by Seamus for the tax year 2015, in respect of the above transactions.

Note: Provide a relevant explanation for any transaction which you treat as not giving rise to a capital gain in the tax year 2015.

(15 marks)

- **(b)** For the purposes of value added tax (VAT):
 - (i) Define a taxable supply of goods and give examples of two different types of transaction which are deemed to be a taxable supply of goods. (3 marks)
 - (ii) Provide two examples of circumstances which affect where the place of supply of goods is deemed to be.

(2 marks)

- 6.
- (a) Outline the various categories of expenditure on which no deduction is allowable for VAT purposes. (5 marks)

(i) As Ton Ltd's corporation tax liability in the preceding year was less than €200,000 it is a "small company" for preliminary tax purposes. As a result, its preliminary tax obligations are as follows:

Pay by 23 November 2015 either:

1 mark

90% of the actual liability €225,000 or

1 mark

100% of the prior years liability €150,000

1 mark

As Kilo Ltd is a newly incorporated company and it has commenced a new trade, it can qualify for the start up company exemption for corporation tax. As a result, it can avail of the exemption so that it will have no preliminary tax to pay.

2 marks

Yard Ltd is not a "small company" for preliminary tax purposes. As a result, Yard Ltd will have two preliminary tax payment dates as follows:

 The first payment is due by the 23rd day of the sixth month i.e. 23 April 2015, during the accounting period.

1 mark

The preliminary tax payment must be made equal to the lower of

45% of the expected CT liability for the period €112,500 50% of the final CT liability for the prior period €150,000

1 mark

1 mark

• The second payment is due by the 23rd day of the month preceding the end of the accounting period i.e. 23 September 2015.

1 mark

The second preliminary tax payment must be sufficient to bring the company's total preliminary tax payments up to 90% of the expected Corporation Tax Liability for the period €225,000.

1 mark

- (ii) Where Yard Ltd has underpaid its preliminary tax as a result of the chargeable gain then:
 - Where an underpayment arises as a result of a chargeable gain arising after the 1st preliminary tax payment date 23 April 2015 but before the second date 23 September 2015 then the company can increase the payment at the second payment date to ensure that it has met the 90% payment. Yard Ltd will need to have paid €230,625 by 23 September 2015.

2 marks

• If the underpayment arises after the second preliminary tax payment date 23 September 2015 as a result of a chargeable gain which occurred after that date and before the year end then it can make a top up payment within one month of its accounting year end in order to bring the total corporation tax payment to 90% of the final corporation tax liability for the period. Thus where the company has paid €225,000 by 23 September 2015 it will need to make a top up payment of €5,625 by 30 November 2015.

(b) Place of incorporation test

- Companies incorporated in the State after 11 February 1999 are tax resident in Ireland except where either:
 - The company or a related company carries on a trade in the state and it is controlled by persons
 resident in an EU member state or a country which Ireland has a DTA or it is quoted on a
 recognised stock exchange in an EU member state or a country which Ireland has a DTA, or
 - The company is deemed tax resident in another country under the provisions of a DTA.

Central management and control test

- A company can be tax resident in the state if its central management and control is exercised in the state. Factors which are examined to determine the location of central management and control include:
 - Where are questions of important policy determined?
 - Where are directors meetings held?
 - Where are the majority of the director's tax resident?
 - Where are shareholders meetings held?
 - Where does the negotiation of major contracts take place?
 - Where are the company accounts prepared, examined and audited?
 - From where are dividends declared?
 - Where are the company's bank accounts kept?
 - Where is the company's head office?
 - Where are the company statutory books kept?
